EXPERIENCE

Graphic Designer/Production Artist, *Self-employed freelance* 2007- Present
Design, art direction and production of visual solutions for the communication needs of clients, using a mix of creative skills and commercial awareness. These solutions can/have include(d) brochures, business identities, posters, logos, packaging, signage, web sites and one-of-a-kind pieces of art. Throughout the process I meet with clients to discuss and interpret their needs and then develop design briefs by gathering information and data to clarify design issues. I work well in a team, with printers, copywriters, photographers, other designers, account executives and marketing specialists.

Graphic Designer, *Anderson McConaughy Design* 1993-2007
Design, Production, Typesetting, Art Direction, Production Management and Account Management
